Trakya University

Bachelor of Information Systems and Technologies

September 2020 - Present

LANGUAGES

English Level - B2

PROFILE

I have been actively working in the software industry as a full stack web developer for about 1.5 years. Throughout my career, I have developed projects and modules using Java Spring-Boot and Node.js. In my company and team, I am known for being highly motivated and for my ability to tackle problems with a fighting spirit and a keenness to learn. I place great importance on communication within the team. In my spare time, I enjoy developing projects and web applications, watching anime, and reading books.

WORK EXPERIENCE

Jr. Web Developer

Linktera Bilgi Teknolojileri A.Ş.   September 2023 - Present
Gebze, Kocaeli, Türkiye · Remote

- During my tenure as a Junior Developer at Linktera, I engaged in development using SQL, Spring-Boot, and Node.js. My understanding and experience with layered architectures and Object-Oriented Programming (OOP) concepts were significantly enhanced.
- Alongside technical growth, I also advanced my social skills within the team through effective communication, knowledge sharing, and building strong relationships. Additionally, my approach to addressing critical issues and overcoming blockers further solidified my interpersonal abilities.

Intern

Linktera Bilgi Teknolojileri A.Ş.   July 2023 - September 2023
Gebze, Kocaeli, Türkiye · Remote

- Throughout my internship at Linktera, I developed expertise in managing large-scale systems using Spring-Boot, with a particular focus on implementing layered architectures and enhancing data structures.
- This experience not only honed my technical skills but also significantly improved my ability to collaborate and communicate effectively within a team setting. I cultivated dynamic interactions with colleagues, contributing to a robust team environment and fostering mutual growth.

Volunteer IT Intern

TeknoDC A.Ş.   March 2023 - June 2023
Gebze, Kocaeli, Türkiye · Office

- During my tenure at TeknoDC, I proactively volunteered to set up virtual machines, maintain critical machinery, and enhance our customer support infrastructure. My responsibilities also extended to providing comprehensive information and maintenance support to both new and existing customers within the Customer Services department. This diverse exposure enabled me to rapidly acquire technical proficiency in key operating systems such as Linux, VMware, and Windows, significantly enriching my skillset over a mere three-month period.
